

INEQUITIES IN HEALTHCARE

LECTURE SERIES

“Racial Inequities in Healthcare”

KAITLYNN JONES

*Affiliate Professor, Health and Exercise Science
Department, Diabetes Prevention Program Coordinator
for The Center for African American Health*

March 16th | 12:00pm
Room 315 Claver Hall

The purpose of this event is to educate future healthcare professionals in RHCHP on issues of racial justice in health and healthcare, as well to learn about the specific work Kaitlynn does on diabetes prevention at the Center for African American Health. We hope this will lay some ground work to prepare us to be well informed healthcare providers and allies to all of our patients in the future.
